Dhruvi Hiteshkumar Suthar

21162101005, Batch-41, Class-4A, CBA, SEM-4

Institute of Computer Technology
B. Tech. Computer Science and Engineering
Sub: FET (2CSE410)
Practical - 1 (Personal Portfolio)

Objective: To create your personal portfolio.

To create a personal portfolio page, you need to be proficient in HTML5 and CSS3. In this project, you will create a web page containing the standard information for a work portfolio, including your name and image, projects, niche skills, and interests.

Exercise:

The portfolio page should have a header and footer section. The header section will include a menu highlighting your personal information, contact information, and work. You can place your photo at the top part of the page and include a short description of your professional career and interests. Below this description, you can add a few work samples. The footer section can contain your social media handles.

CODE:

1)prac1.html

```html
<html>
    <head>
        <title>Portfolio</title>
        <link rel="stylesheet" href="prac1css.css">
        <link
